HURDY-GURDIES.—There is, perhaps, no instru-ment that is so universally execrated than the hand-or, an, and we notice their reappearance among us with sorrow. The first intimation of

war acted like a simoon and bore the terrified street performers with it to distant lands, and

during the four years that we were debarred com munication with the outside world we were at least spared the infliction of their villanous music. The cessation of hostilities was gladly hailed by

these itinerants, and they turned their steps south-ward, hoping to come in for a share of the pick-

ings. Housekeepers, invalids and nervous old gents held up their hands in holy horror at the new invasion, but the juvenites of both races were intensely delighted and claimed the music as one

of their special privileges. So far only the advan

guard of this army has reached our city and these have come in light travelling condition, unaccom

panied even by the irrepressible Jocko. The meio-dious notes are the same as in days of yore, and the audience composed of the same little upturned

faces that these performances usually attracted, while the grinder has the same patient, foreign look and grinds away with a melancholy apathy that is more influential in raising the coppers than his spasmodic jingling. The organ grinder is an institution that has always been inseparably connected with a large city, and as such we hall his advent with pleasure as a foresthering.

THE PLANTER.—There is perhaps no steamer in our harbor that is associated more intimately with the "lost cause," than the *Planter*. Her escapade

ed as one of the events of the siege, and her sub-

sequent employment by the blockading squadron, made her capture more conspicuous. The piping times of peace brought a change in the career of the *Planter*, and she was mustered out of the ser-

vice. The past reputation of this boat and unfor

tnnats notoriety during the war, rendered her an object of some interest, and her former owner

Capt. Ferguson, having a business fondness for his old friend, purchased her from the Govern-

On his arrival, Cartin Ferguson was treated to a surprise collation by the employees of the wharf and office. A number of gentlemen collected in the cabin of the *Planter*, and champagne corks

were popped in every direction. The sparkling character of the beverage generated a pleasing in-terchange of compliments, and wit and wine ruled

supreme.

The new route of the Planter has not yet been

ANNIVERSARY OF THE BURNING OF COLUMBIA.

That bear tiful city was in one day deprived of its fairest ornaments, and the streets converted into a blackened and ruined waste. The confisgratio was so extensive, and the results so dis that Columbia acquired the soubriquet of the chimney city from the number of these mo ments of an invador's triumph that were left standing. Their second birth demands a christening, and there are none more able to act the part of spon-sors than our gallant firemen. The bells have been sent out with all the apparatus necessary for their adjustment in the steeple, the pieces are each marked, and there will be not difficulty in arranging their proper positions.

DARING ROBBERY.-On Saturday night last s daring robbery was committed on the premises of one of our citizens residing in Society street. • In consequence of sickness the family retired between the hours of nine and ten o'clock. The thief or thieves deliberately opened the front door, and also the door leading to the passage way, both of which were unlocked (as some mem-bers of the family were still out), entered one of the rooms, took down pictures from the walls and laid them on the carpet—opened and earned off a buffet drawer, containing articles of silver ware, knives, table linen an I glassware, and safely and quickly made their exit with their ill-gotten way, both of which were unlocked (as some me plunder. Nature is the grand antagonist of disease, and the depletars propose to prostrate nature, in order, one might suppose, to give the enemy a double chance at the life of the patient! The true practice is so to invigorate the vital powers as to render: them an overmatch for the elements of disease. This can be done with HOSTETTER'S STOMACH BITTERS. A FEW WORDS OF COMMON SENSE.

How few there are who are not subject to some affection of the lungs or respiratory organs, who, by neglecting premonitory symptoms, aggravate the complaint, until disease strikes its sharts, causing inexpressible torrure of the patient, and anxiety and distress to friends. "Only a cold," "at slight sore threat!" is the heedless remark of many when so affected. Yes; "Only a cold," was the thoughties expression of thousands whom Death has marked for his prey.

Forewarned—Forearmed! should be the motto forever in the minds of all subject to Coughs, Colds, Catarrin, or Influenza. Words of advice should be heeded by all suffering from Anthma, Bronchitis, Consumption. Relief is within their reach; and, if neglected, stal consequences distus—a life of misory—a daily, hourly struggle for existence. A contest in which there can be but one victor—Death!

Does it not appal the strongest mind, to think of the result caused by neglect? Then why delay? White excuse can be offered, when timely warning is sounded in your exrs? When the danger is pointed out, why not avoid it? Managars?
